AB'M BARKER, Proprietor.

THE EGLIAN HOTEL. SM BROADWAY.—AMONG the many elegant hotels which have recently been established to meet the comforts and tastes of our citizens, and the numerous strangers sejourning among us, there are tes, if any, that present more advantages for the accommostration of the management of Mr. G. Donotous, up seem to the community as one of the most experienced and gentlemanly hotel proprietors of the day. The Eslian is appointed with all the elegancies and comforts of the modera style of first class houses, while the table presents every variety of luxaries that can be furnished by the market, or prepared by the most skilled cuisinier. Families desirous of afterding themselves all the comforts and elegancies of a home, would find it to their advantage to give this house their patronage. It is located in one of the most agreeable quarters of the city, on Broadway, between Twelfth and Thirteenth streets, in the immediate vicinity of Union square. With all the advantages of this house, the terms are comperatively moderate. Families find all the enjoyments of a home, without half the expense or trouble of housekeeping.

DONEGANA'S HOTEL—THIS WELL ESTABLISHED Hotel, so favorably known during the past season to travellers from the United States and Canada, has recently been completely remodelled and furnished, and received very considerable additions to its former accessmendations by the breetion of a new wing, containing upwards of lifty sleeping appartments. These are all arranged in such a way, as to receive the finest ventilation—having a free aspect over Viger equare and the Champie Mars to the mountain. It is now under the direction of Mr. G. W. Billings, whose long experience at the Astor House, New York, will secure to visite every convenience which can be expected from sedulous attention to their wante. The books will be under the direction of Mr. W. V. Courtney, who is well known to all visiters to Montreal; and Mr. Tetu has charge of the culinary department. Pontreal, May 15, 1851,

WAWAYAN BA HOUSE, GREENWOOD LAKE,
Orange County, New York.—This house is situated as
the head of Greenwood Lake, to miles from Chester and
but four and a heaf hours ride from the city of New York.
The New York and Eric Railread leaves from the foot of
Dune street every morning and evening, for Chester Depoi,
where, at Cooper's Hotel, carriages are in readiness to nonvey passengers to the Lake. For particulars, apply to Heary
D. Felber, 6df Brasdway, corner of Prince street; or of the
proprietor, at the Lake.

THERON FRITER,

SEA BATHING AT ROCKAWAY, L. L.-THE PAVI-Dina Hotel is now open for the reception of visiters. Cars leave the South Ferry. Brooklyn, at 9 o'clock, A. M., and 4 o'clock, P. M., for Jamaica, where stages will be in readiness to convey visiters to the house. A note left at the Howard Huisi, corner Broadway and Maiden lane, or J. Oguon Smith, of Front attent, will meet with prompt attention.

June 26, 1851.

PPILAMELIFIE, MENTY HOULISTRASSER, Bell Hanger.

PPILAMELIFIE, MARCH 7, 1851. 49 South Eighth et.
The public are respectfully cantioned against making,
residing, for using an infringement of this patent. Manufactured only by Johnson and Annunciator Manufacturing Company, 61 Dunns street, New York. The patents for England, France, and the Canadas, for sale.

She arrived out to Chagres in eight days and seven hours, from wharf to anchorage. The passengers by the Empire City went up the Chagres river in two steamboats which now make regular trips up one day and back the next, running up in ten to twelve hours, and down in four to seven hours. These boats are large and comfortable, and carry passengers with much greater safety and security than the boats and canoes heretofore used, with recent rains. Persons going out will add much to their safety and comfort by taking these beats. One o them-the Wm. H. Aspinwall-can conveniently carry two hundred passengers with their baggage, and afford all a dry, shady and pleasant promenade. She leaves

Chagres early in the morning, and reaches Gorgona the same evening. Winslow, Lainer & C. Co. 3,648 Morris A. Wolf 1,861 C. Co. 3,648 Morris A. Wolf 1,861 C. S. Robbins & Son 3,678 Silizman, J. SAT FRANCISCO, May 1-4 o'clock, P. M.
Shipments of Gold Dust-The Charter Elections-Return of Senstor Gwin-Lynck Law in California-The Secret Ex pedition to the South-Markets-Ship News-News from

Oregon, de., de. The mail steamer Oregon is about leaving. The Republic has already shoved out from her wharf, and the Union has passed out the golden gate, all loaded with passengers for Panama.

The two former take about \$2,000,000 in gold dust

The two former take about \$2,000,000 in gold dust. During the months of January, February, March and April, the aggregate amount shipped, as entered at the Custom House, was \$12,537,542; estimated amount as having gone forward in the bands of passengers, \$3,200,000—making a grand total that has been sent to the Adiantic side in four months, of \$15,657,542.

To got at the product for the same length of time, which has found its way into circulation, the amounts shipped to Oregon, Mexico, Chill, &c. should be added, which will not be feet than \$1,000,000. The sums in the hands of miners, merchants, brokers, otc., are variously estimated at from \$1,500,000 to \$4,000,000. The present year will astonish the world even more than the post, in the amount of gold taken out.

At the election for city officers on Monday, the whole whig general ticket was successful, Ly large majorities.

ARRIVAL OF THE EMPIRE CITY,

WITH NEARLY

Two Millions in Gold, over Three Hundred

Passengers, and the California Mails.

ADDITIONAL NEWS FROM THE GOLDEN STATE,
&c., &c., &c.

The steamship Empire City, Capt. Wilson, arrived yesterday from Chagres ria Kingston, Jamaica. The E.

C. brings the United States malls from San Francisco to the 1st of May, 550 passengers, and nearly \$2,000,000 in gold dust.

She left Chagres May 25th, and Kingston, May 27th.
She arrived out to Chagres in eight days and seven hours, from wharf to anchorage. The passengers by the Empire City went further than the field, he would make but a poor show. The old Californians, however, stick to Fremont, its right of the express from Stockton, this forenoon, brings us an information to present Recorder, Frank Tilford, for Mayor, by several hundreds. The whigs have a majority in the Board of Aldermen. The contest was of a strictly party character, though the fact that she had on board arms belonging to the United States, and illegally obtained.

[From the Public Balance, May 1.]

The Alta California, of yesterday, associates the name of Col. White with the secret expedition against some period on the Laidenth in New York.

Senator Gwin and lady arrived in California on the 23d uit. He has been complimented by a vote of thanks, for his services in Congress, by the Legislature. His college we have the content of the nearest of the Aller California, of yesterday, associates the name of Col. White with the secret expedition against some period on the Aller California, of yesterday, associates the name of Col. White with the secret expedition and liegally obtained.

From the Public Balance, May 1.]

The Alta California, of yesterday, associates the name of Col. White with the secret expedition and liegally obtained.

From the Public Balance, May 1.]

The Alta California, of yesterday, used city by the Aller California on the Said to be concerned. Whatever may be the endure of Col. White side the said to be concerned. Whatever may be the nature of t

by surprise Against Mr. Fremont he may be elected; but with any other man in the field, he would make but a poor show. The old Californians, however, stick to Fremont.

The express from Stockton, this forenoon, brings us an account of the hanging of five Mexicans at Bonsell and Scott's Ferry, on the San Joaquin river, for stealing horses. They were caught with the animals in their possession, tried by a people's jury, convicted, and sentenced to be hung. A rude gallows was prepared; the robbers were placed in a wagon and driven under it; a rope adjusted to the neck of each; the horses were started, and in a twinkling, the five hung side by side, between heaven and earth. They confessed their guilt, and said they were employed by white men to rob the ranchos.

I also learn by express that a man named Wm. A. Bowen, was murdered at Sonora, about 2 o'clock on the morning of the 27th ult. He was stabbed in the right abdomen, and lived but about three hours. He was from Providence, R. I., where his father, family and friends reside. The nurderer is unknown.

A monster lump of gold was taken out at Sonora on 25th ult. It weighed a little over 28 lbs., and contains about 21 lbs. of pure ore. Four lumps have been taken from the same lead, in Holden's Garden, during the past week, the smallest of which weiged 40 onnecs.

Rumors have been rife in town for a week, that an expedition has sailed for Lower California, for the purpose of taking possession of a portion of the territory. What reliance is to be placed upon the story, is not yet known. It is said that General Morehead, the Quarter Master of the State, is connected with it. Certain it is that he left the city auddenly and privately, after having disposed of a large number of the arms of the State. A proposition has been made in the legislature to authorize the Governor to fife a reward of \$1,000 for his apprehension.

The State Legislature adjourns to-night. The city debt of San Francisco has been funded, as also the State debt. A considerable amount of State bonds

Exchange on New York and other Atlantic cities, 2 per cent. sight.

The following vessels have arrived from New York since my last dispatch, 15th ult. —

Ship Bothine, Avery, 147 days, merchandise.
Ship Lanthe, Johnson, 216 days, coal. lumber, &c.
Ship Augubon, Winson, 150 days, merchandise.
Eark Southerner, Hooper, 192 days.

The steamship Celumbia arrived to-day from Oregon, bringing Astoria dates to the 27th ult. She made the trip down in 62 hours. Trade in Oregon was very good, and the country generally prosperous.

General Joseph Lane will undoubtedly be elected delegate to Congress from that territory, at the approaching canvass. He is the nominee of no party, but runs independent of all. There are, however, no prominent opponents.

Six—I have been necessarily delayed in complying with the rescution adopted by the General Assembly of this State requesting me to furnish an abstract of the census returns, in consequence of the many causes which have transpired to retard this work; and, at the present time. I am able to render but a partial and incomplete statement of the same, as the full returns have not been received. A letter of recent date from the deputy to whom was assigned the district embracing the first two named counties, informs me that he has completed his labors there, but furnishes no information as to the number of inhabitants. I have made repeated efforts, thus far ineffectual, to have the census taken in the county of Tuolumne. I have a yet received no information from the deputy last appointed there.

In some instances you will observe that the returns are given in round numbers. In such cases, there are predicated upon the information furnished by the respective deputies, which will be found a near approximation to the returns.

The counties of Trinity, Shasta and Colusi are given as comprehending one district. The gentleman who performed this duty in these counties received his commission in the month of September last, he being then a resident of Trinity. He entered upon this duty without the means of deterining the proper subdivision of that district; and so cromeous, in fact, was the general impression then prevailing amongst the population residing there regarding the northern boundary of the State, that a large population on the Riamath river was not enumerated, being supposed to be comprehended in the Territory of Oregon.

The result of this enumeration, when completed, will, in all reasonable probability, fall short of the entire population of the State, from thirty-three to fifty per cent. Such a result must naturally occur to the mind of every person convergant with the circumstances surrounding those engaged in the mines—probably the most numerous of our population—residing, as many of them do, in unknown and un

I am inclined to believe, from information of the most reliable character, that this disparity is greater in the extremely northern mining countles—to say Trinity. Shasta Colusi and Butte—than elsewhere. In reference to the first three named, that has been partially explained.

In all the counties, the census was taken in the menths of September and October last, at a period when the miners had already or were leaving, a large number for the more sounthern mining countries. In the last two or three menths there has tended thitherward a large emigration; and at this time I am well adviced that the population of Butte countries as any other

dien of Butte county is as numerous as any other cunty of the State. With the foregoing explanations, I hope the returns crewith submitted in the following exhibit, will render

Americanizing Lewer California.

[From the Alia California, May I.]

The spirit of daring enterprise seems to be developing itself in the shape of organized expeditions on dangerous and somewhat questionable undertakings, so far as international relations are concerned. It appears that a vessel now in the harber was fitted out and ready to sail for Marathan, baving on board a band of daring, bold and reckless men, with all the manifons of war, and under the ampiece and command of some person or persons of some note and influence, preceding with the view of Americanizing, or, in other words, revolutionlaing Southern California and Northern Mexico. Geror-

she had on board arms belonging to the United States, and illegally obtained.

[From the Public Balance, May 1.]

The Alta California, of yesterday, associates the name of Col. White with the secret expedition against some portion of Lower California, in which Gon. Morehead is said to be concerned. Whatever may be the nature of this formidable expedition which appears to have struck so much terror into the heart of our vigilant contemperary on the Plaza, we are perfectly astisfied that Colonel White has nothing to do with it. It is supererogatory in a newspaper to implicate the name of a private citizen upon mere "rumors," "conjectures," and "inferences," in a project which is pronounced to be "abominable," base," and "infamous," and is in this case as rideulous as it is unjust.

We have been intimately acquainted with Colonel White for a long time. When we were fined and imprisoned at Vera Cruz, for defending the rights of American citizens against the arbitrary and unjust manulates of a corrupt court and an infamous council, upheld by the sword through the avarice and meanness of a despotic and pusillanimous governor, Col. White was one of our warmest and best friends. He sympathised with the oppressed and down-trodden Cubans, and made a noble struggle to liberate them from the mental and physical yoke of tyrannical Spain; but he possesses a soul which never condescends to that which a sbominable, base, or infamous. If the press and the desires of those who may endeavor to extend the area of freedom, we have more reason to fear that our own nation will sink into bondage, thas to california.

reside.

On the 20th April, at San Antonio, Contra Costa county, of lockjaw. Mr. Edward Patter, sged about 55 years, formerly of St. John, N. B.
On the 3d of April, in the Coast mountains, of congestive chill, after an illness of three or four hours, Nicholas M. Stone, of Bloomfield, Ky.
On the Sth instant, at the Green Springs, Rufus Hitchmark and 15 years.

M. Stone, of Bloomfield, Ky.
On the Sth instant, at the Green Springs, Rufus Hitch-cock, aged 45 years.

At Bridgeport, Cal., on Thursday, April 24, by the Rev. Mr. Briggs, Mr. Jos. M. C. Jasper, to Miss E. J. F. A. E. Wood.

At San Francisco, April 13, by the Rev. A. C. Brown, Mr. Francis Tracy, of New London, Conn., to Miss Jane Walker, of Texas.
On Sunday, March 16, at Grass Valley, by Justice Roberts, Freeman W. Austin, formerly of Hancock county, Illinois, and Hopsey Jane Underwood, formerly of Jackson county, Missouri.

In San Francisco, on the 15th inst., by the Rev. J. C. Cox, James G. Printiss, of New London, Conn., to Miss Helen J. May, of Astoria, O. T.

In Santa Clara, on Sunday, 15th inst., by Rev. Wm. Moorew, Mr. Jackson Sanor, to Miss Elizabeth Rogers, all of Santa Clara county.

At Steckton, on Menday evening, April 28, by the Rev. Mr. Woods, Mr. Angevine Reynolds to Miss Virginia Caruthers, all of the city of Stockton.

Via San Francisco, we have received advices from Ore-

Ship Lanthe, Johnson, 216 days, coal lumber, &c.
Ship Anoubon, Winson, 150 days, merchandise.
Eark Southerner, Hooper, 139 days.
The steamship Columbia arrived to-day from Oregon, bringing Astoria dates to the 27th ult. She made the trip down in 62 hours. Trade in Oregon was very good, and the country generally prosperous.
General Joseph Lane will undoubtedly be elected delegate to Congress from that territory, at the approaching cannass. He is the nominee of no party, but runs independent of all. There are, however, no prominent opponents.

The bark Frances and Louisa, Captain Mayo, had arrived at Actoria, 160 days from New York, with an assorted cargo. Also, the schooner Albert, Captain Watson, 185 days from Boston.

There are no there arrivals seaward, to-day. As I close my despatch, the steamer New Orleans is reported outside. There are but three or four clearances, all for our own ports, with the exception of the three steamers for Panama.

FRANK.

The Census of California.

C. S. Cesses Adent's Office, Salamansan Corr. April 10, 1851. Sir—I have been necessarily delayed in complying with the resolution adopted by the General Assembly of this State, requesting me to furnish an abstract of the consus returns, in consequence of the many causes which have transpired to retard this work; and, at the

ing satisfied that the dangers and difficulties in coming in and going out of the Columbia river have been greatly magnified by interested parties."

The new steamer Lot Whitecomb, Capt. Win. I. Hanscem, built in Oregon, has commenced her trips between Milwaulties.

This replendid steamer arrived here to-day, with freight and passengers from Asteria. On her trips down, we understand she took about 200 officers and soldiers from Fort Vancouver, on their route to California. They were very orderly and courteous, and showed that they were under the very best discipline. We learn the steamer on this trip need a few tons of native Kergon coal, farnished at Fort Vancouver; and it is pronounced a firstrate article, and no doubt are entertained that the discovery of the coal mines will prove of great value to Oregon. We learn also, that she made the trip from Fort Vancouver to Asteria in eight hours. She left Asteria in canasany with the steamer Goliah, and distanced the Goliah of the coal state of the coal state. meany with the streamer Collah, and distanced the Co-h to Portland, twenty-live minutes ahead. The Whit-mb made the run in ten hours—the quickest trip by a hours ever made on the rivers. Who says we hain't cone of the native Oregon steamers.

The troops were to leave Orsgon about the let of next menth.

We learn from Mr. Daniel O'Neil, assistant marshal, that the census of Oregon, just completed, amounts in the aggregate to 15.52 persons. It is estimated that there are about 2000 of the last immigration not included in the above.

Hedges & Barlow have completed their arrangements for the construction of a seamer to run on the Williamstto, above the falls at this place and will set about the work immediately. They expect to have it running early in August next. Her dimensions are as follows: Length on the main deed, one hundred and twenty feet, beam twenty three fiet, depth of held four feet. She is to be provided with an upper cabin, borths, &c., for the accommodation of passengers, and is to be finished in good style. The estimated cost of her construction is \$23,000. Dr. John McLaughilm has been elected Mayor of Oregon City. The vote steed for McLaughilm 44, for W. K. kilborn (present Mayors 22. Hatch, and M. Anged.

William Kerdall, the person charged with the nurder of Hamilton, some time since, has been tried at Salem, and convicted of murder in the first degree. The day for his execution has been ester the 18th of April. The want of a suitable place in which to confine him is the reason, it is said, for the illuited space altotted him.

They had new potatoes in Oregon vity on the Schinstant.

There are two candidates for the position of delegats to Congress—Judge Lancaster and General Lanca. Captain Whiteonh has tested the Couline coal and pronounces it excellent. A company is now engaged in making extensive arrangement for a coal depot at or near the mouth of the Coulins river.

The election which came of in Portland on the 12th instant, resulted in the election of Hugh D. O'Bryan to the office of Mayor, by four majority, over J. S. Smith. The Aldermen elected are, Robert Thomson, S. Norris, Geo. A. Barnes, T. G. Robinson, and L. B. Hastings, Recorder, W. S. Caldwell.

The gentlemen of Pertland propose to give a grand military bail to the officers of the regiment of Mounted Riflemen, before their departure. The ball is to be at the Columbian, on Wednesday, the 25d April.

Theatrical and Musical.

Bewent Timans.—The entertainments here will consist of the tragedy of "Douglas," and the drama of the "Pirate of the Isles"—a fine bill.

Brauness Timans.—A favorite farce, and the new and gorgeous spectacle of "Arael," which was received last erening with enthusiasm form the entertainments.

Nimo's Gauss.—The evolutions on the tight rope, the new ballet of the "Elepement," and the amusing pantenime of "M. Duchalumeau," comprise the entertainments.

Bunion's Timans.—Miss Weston takes her benefit. The places selected are, "she Stoops to Conquer," and the

BURION'S TREATME.—Miss Weston takes her benefit.
The pieces selected are. "She Stoops to Conquer." and the
"Wandering Minstrels." with music by the orchestra.
NATIONAL THEATME—The smuss ments here will consist of 'Charles II." and the "New York Apprentices."
All the principal performers will appear.
BROUGHESS I VOLUM—A fine bill, as usual. The
smussing piece of the "Home Book of Beauty," and the
"Invincibles." No doubt, a full house.
CHRISTY'S MINSTRELS—This company aunounce a very
splendid bill.

Fig. 1988 Misserman —This company aumounce a very splendid bill.

Baneth's Trassaction Misserm.—The best time to visit this exhibition, especially for indies and children, is during the morning and afternoon performances.

Baneth's Misserm.—The same excellent bill for afternoon and evening, will be presented. No doubt the assemblinge will be large.

Hon Daniel Webster has been invited to address the eithers of Newburyport, Mass, on the 4th of July.

VERY LATE FROM THE SOUTH PACIFIC. TERRIBLE EARTHQUAKE IN CHILI.

Serious Damage to the City of Valparaise.

The British Mail Pacific steam packet Boffvia, Pearson, with 45 passengers, and \$817,000 of silver bullion, and 720 packages of merchandise on freight, arrived at Panama, on Sunday, the 18th ult., from Valparaise and intermediate ports.

An awful earthquake, which nearly swallowed up Valparaiso, occurred on the 3d of April last. The first shock, which was the severest one, and which caused the falling of many buildings, and the destruction of much property, occurred at about six o'clock on the morning of the 3d; but occasional shocks, of greater or less severity, were felt for the succeeding ten days, doing more or less damage.

We are in receipt of files of the Neighbor and Reporter, from the 9th to the 25th of April, inclusive. We copy the following full particulars from the Reporter, of the recent

on the second of April. at 6% A M., Valparaise was visited by one of those calamities so frequent in volcanie countries.

The severest shock ever felt since the great earthquake of the year 1822, when Valparaiso was almost totally destroyed, has created a panic not equalled by any former

of the year 1822 when valparaise was almost totally destroyed, has created a pame not equalled by any former event.

A severe trembiling of the earth, of fifteen seconds duration, prolonged by less violent after shocks, to two minutes, which two minutes appeared as so many hours to those whose lives and property were endangered, has in so short a time destroyed several hundred dwellings, and has made a great number of persons houseless.

It is generally believed that from the violence of the shock, ten or fifteen seconds more would have brought on the same disastrous consequences as the earthquaken 1822, though the houses at present are generally built in a more substantial manner, and less liable to fail.

The motion came from the south, and directed its course to the north, notwithstanding some of the northern ports of the country, as Copiapo, Coquimbo, and Cobija, have only felt very slight symptoms of the shock, and it is supposed that the motion, though severe, has not spread over much territory. From the South, Conception, Talcahuanc, and other places, we have received no intelligence up to this date, but are led to believe, from the irregular course of the motion, that the effects have not been severe.

Constitucion, we have ascertained, has not suffered. We have received further accounts from the captain of a vessel from the South, who reports to have felt a severe commistion in the sea, forty nales off San Antonio. This confirms us in our opinion that the motion of the certhina been very irregular.

The temperature during the earthquake, was hot and oppressive, but no alteration took place in the thermometer, which stood 62.

The American frigate Raritan let go her lead immediately, and had great difficulty in hauling K in; the convulsion at the bottom of the sea having caused it to sink three feet in the sand.

The motion of the earth was observed to be of less violence in some parts than others, not a hundred yards distant, so much so, that old and decayed houses stood the sheck better, in some parts

the shock better, in some parts, than newly and strongly erected edifices; and those houses in the structure of which the most timber has been employed, remained almost sound.

During the eventful 15 seconds the houses rocked to and fro as so many vessels at sea.

Not a breeze of air was perceptible during the whole of the day, and slighter shocks continued at 6.46 minutes, 8.56 minutes, 16.56 minutes, and have continued ever since, of more or less strength and duration; and even at this moment of writing, on the 7th instant, at 11; P. M., a short but severe motion made the inhabitants rush out of their houses.

The houses in the port, where the greater part of the commercial establishments keep their offices, have, comparatively speaking, suffered but little, being built on a solid rocky foundation; and we can only hear of one of General Herrera's houses, occupied by Messrs, Gibbs & Co., being in a dangerous state. The custom home has suffered little; some slightly constructed outward cramments having been demoished, and part of the roof having been carried along with it. The consequent, heavy rain, however, on the 4th inst., has damaged a number of packages, the extent of which we have not as yet ascertained. A few houses situated on the top of the hill, (Main Top) a sailors' resort, came tumbling down with a crasis.

In those parts, however, spreading along the beach, the Almandrale, Calle Nueva, and others, where the ground is loves and sandy, considerable damage has been dome, and above two hundred houses are untit for habitation, here than two hundred houses are untit for habitation, and above two hundred houses are untit for habitation, with a crasis.

The middle of the streets were crowded, particularly with the female portion of the city, ontill in the course of the following day, tents and wooden houses were crowded, particularly with the female portion of the city, ontill in the course of the following day, tents and wooden houses. The captains of vessels of all nations, in the port placed, immediate

then received the thanks of the government for their hospitality, expressed in a letter from the Intendente, General Islance.

Much damage has been done to stores where liquids, glassware, and other breakable materials are kept. We are happy to ray not a single life has been lost, not can we have of a server fracture. On the 4th instant, at 13 o'clock P. M., a heavy rain set in which lasted uninterruntedly for twelve hours, which could the atmosphere considerably, but destroyed still more property, pouring into the reoffess houses, and compelling those who had taken refoge in the plans, and were living in tents, to leave, and seek shelter in the theatre, or with friends in the port. The leas is generally estimated, including the damage done to buildings which have suffered are the Adman, the churches there day and the Tompie Saint Domingo.

The scarcety of houses, so much felt before the earthquake, by the fast increasing population of our city, has now reached the highest degree.

Commissioners have been appointed to examine the houses, and to condemn those which are in an unsound condition. It is to be hoped that the constructors of houses will be in future, more careful in the choice of materials, and study the best med adapted for mailing in a country subject to earthquakes, and that they will not be made excess by the econosistion that these vision is shocks only takes place every twenty or thirty years.

Lot be made careless by the consoliction that these vision thecks only takes place every twenty or thirty years.

We were pleased to see the activity manifested, both in the last firs and during the earthquake to repair the damage done. Almost whichin an hour after the entastuphs we saw the pleases (workner) kusy clearing the roots of troken tiles, and the streets of rubbish, and think that the Chience made an honorable exception to the incolence with which the Spanish race is generally reproached.

In the Chience made an form of the incolence with which the Spanish race is generally reproached.

Loud Hence having been closed by erder of the latendatote.

Can Blanca, as well as Quillota, have infered severely, and in same parts in the latter places, as well as in the rapidal, the ground has opened and thrown up a quantity of hot water.

The domage done in Santiago is studier to that in religious, with the exception that, there being a larger namber of public buildings in the capital, the pecunical resource of his Excelency President Bulms, the cathedral, the temple of San Francisco, the Church de la Compania (which has been closed since) the old palace completely rubned, and the court house.

Let us hope that years may also ever we are visited again by such a mistoriume, and let us thank God for the court house.

Let us hope that years may also ever we are visited again by such a mistorium, and the court house.

At three colocis in the morning of the 20th inst, the battalion validiza marched out of their barracks, headed by Colonel Urricia, and hoping to be suppected by the populace of the city, endeavored to take by assault the barracks of the artiflery for the purpose of procuring arms for them. This they found was no casy matter, for it was gailantly defended; but after being set on fire, it was taken. In this part the firing was heavy and the well contested ground showed symptoms of the bicodimess of the fray. In the meantime, the President, and haif the lattesien of Chaechuce, together with many relationsh
